TATA STEEL

Declaration of Performance

(according to Regulation EU No 305/2011)

Unique ID code TSNT 275J0H [Grade S275J0H / 1.0149]

Harmonised standard EN 10219-1:2006 - Cold formed welded structural

hollow sections of non-alloy and fine grain steels -Part 1: Technical delivery conditions (issued on the Official Journal of the European Union on

01/02/2007)

Intended use
To be used in metal structures or in composite

metal and concrete structures. This product is supplied with a non-specific inspection document 2.2 (according to EN 10204) that does not include the full length non-destructive testing of the weld (as defined in table 2 of EN 10219-1). This product is only suitable for intended uses for which the non-

specific inspection 2.2 is sufficient.

Manufacturer TATA STEEL NEDERLAND TUBES BV

TSNT 275J0H [Grade S275J0H / 1.0149]

EN 10219-1:2006

To be used in metal structures or in composite metal and concrete structures. This product is supplied with a non-specific inspection document 2.2 (according to EN 10204) that does not include the full length non-destructive testing of the weld (as defined in table 2 of EN 10219-1). This product is only suitable for intended uses for which the non-specific inspection 2.2 is sufficient.

Performance declared for the following essential characteristics:

Yield strength: 275 MPa (≤ 16 mm)
Tensile strength: 410 – 560 (≥ 3 mm)
Elongation: 20% (18% where Table A.3.c applies)
Impact strength: 27J at 0°C
Weldability (CEV): 0.40%
Durability: See Declaration of Performance

Tolerances on dimensions and shape: In accordance with EN 10219-2:2006

Dangerous Substances: No Performance Determined (NPD)
